PROJECT
Adventure Spark   [*https://adventure-spark.fun*]
[*https://github.com/raynamecham/adventure-spark*]
-Web app that utilizes the Google Maps API and the YouTube API

Adventure Spark lets users search a map for travel ideas. When a marker on the map is clicked, they will see a sidebar of YouTube videos of things to do in that particular area. Users can also keep track of their own adventures on their personal Adventure List. Adventure Spark will spark ideas for your next adventure!
